Axiom IT Solutions Pte Ltd recognised as winner for 2017 Microsoft Singapore Cloud Packaged Solution Partner of the Year

Singapore, 11 October 2017 — Axiom IT Solutions Pte Ltd (Axiom) today announced it has won the 2017 Microsoft Singapore Cloud Packaged Solution Partner of the Year Award. The company was honoured among a community of top Microsoft partners for demonstrating excellence in innovation and implementation of customer solutions based on Microsoft technology.

“Thank you to the strong and continuous support from our customers and partners. This a strong testament of our expertise and commitment to the cloud technology that we had invested in, as we continue on the digital transformation journey together with our customers.” Said Lam Pang Ngean, Managing Director of Axiom IT Solutions Pte Ltd. “This award motivates our team to innovate further and to create more differentiated solutions for our customers.”

Awards were presented in 18 categories, with 15 categories reflecting the solution areas – modern workplace, business applications, applications and infrastructure, and data and artificial intelligence – that will act as the ingredients in the digital transformation of public and private enterprises in Singapore.

Axiom IT Solutions was recognised for providing outstanding solutions and services in Cloud Packaged Solution. This win was attributed with Axiom’s key differentiated partner led offering - a single packaged solution for email, unified communication, storage, collaboration with fully managed service covering end to end solution from Microsoft Exchange, Microsoft Teams, Microsoft SharePoint, Microsoft OneDrive, ASM, ATP and top it up with their own PSTN Connector service, Managed Services and Application Development/Integration. This is a specialized, yet generic solution that can be applied for all business organizations to enjoy benefits of seamless cloud adoption and digital transformation at work. The success was further driven by the strong ecosystem of partner to partner collaboration with UC solution partners and Axiom’s own developed IP to deliver a long-lasting value to our customers via Cloud Solution Provider (CSP) Program.

“We are honoured to recognise Axiom IT Solutions on achieving WINNER of the 2017 Microsoft Singapore Cloud Packaged Solution Partner of the Year,” said Gerald Leo, Director, One Commercial Partner and Small & Midmarket Corporate, Microsoft Singapore. Axiom IT Solutions is a prime example of the expertise and innovation we see in our Microsoft Singapore partner community to deliver transformative solutions.”
